VIEW™ |7" Touchscreen

TL700 - 7" Touchscreen

The TL700 is an IP-Based in-wall touchscreen keypad featuring a high resolution, color LCD touch panel, designed for a VIEW system. The TL700 features a 2-port Ethernet switch and two 4-pin Phoenix connectors for communications, power, and cascading one IP-Based Amplifier / Room Controller.

ClearOne®

IP-BASED IN-WALL TOUCHSCREEN

APPLICATIONS

+ Audio/Video Routing Control
+ Source Selection
+ Source Transport Control
+ Audio Level Control
+ Control and Display of Camera Images
+ Multi-room System Control
+ HVAC Control
+ Lighting Control
+ Control of Displays
+ Projection Screen/Projector Lift Control
+ Paging/Intercom

ADVANTAGES

+ The VIEW TL700 uses a touch sensitive color LCD panel to display controls, metadata, and content. The TL700 includes a 7" TFT color LCD screen.

+ The VIEW TL700 interface allows control of all aspects of a VIEW system, displays metadata regarding the audio/video source or control system, and displays images from IP cameras.

+ The intuitive user interface allows the user to assume control over other zones or to control multiple zones.

+ "Skins" can be selected that blend the screen's look with the color and style of the room.

+ Supports over 15 languages and international language meta data.

+ Includes a built in microphone allowing for paging and zone monitoring over the VIEW network.

+ Included is a built in IR Receiver that recognizes all VIEW Discreet IR commands and supports network IR passthrough of all other IR signals.

+ Each TL700 includes a white trim plate, but color kits (sold separately) are available in almond, ivory, and black.
